<u>ISSUE/TOPIC</u>	
<u>URGENT Need for a traffic circle at the intersection of Slangkop Rd & Kommetjie Rd.</u>	
<u>#SafeMobilityIsOurRight #StreetsForLife #SlowDown</u>	
<p>The intersection between Kommetjie, Slangkop Road & the schools of Generations & Waldorf expose the users of roads in the Deep South to unnecessary danger. The intersection has seen increasing use & complexity in the last few years as traffic has increased & the schools of Generations & Waldorf grow .In addition other housing Estates have been planned to use this intersection, leading it to be even busier, & potentially more fatal in the near future.</p> <p>More than 350 people have signed a petition, so far, asking for a traffic circle. See https://chnng.it/2VxqpcSf</p> <p>Here are a few comments from the Petition: GA said: “There has already been at least one incident on the morning of 4th of August 2022 with injuries including two broken legs and a broken pelvis for a motorcyclist. In addition there have been multiple near misses</p>	

for example this account from the 19th of August. In addition, stories of near misses abound in the communities.”

DW said: “I use that intersection almost daily and have witnessed many near accidents.”

MK said: “I witnessed a crash here many years ago when 2 vehicles collided & an unrestrained child went through the front window & died.”

DS said: “I really, really hope it doesn't take someone getting killed for improvements to be made. Whether it's a circle, traffic lights or something else, the situation has to change.

Anyone using the intersection can tell how dangerous it is and I don't understand why the authorities are not taking steps to improve matters.”
